WHAT'S THE MATTER WITH US, ANYWAY?

By WALTER C. TEAGUE,
(President, Standard Oil Company, of New Jersey.)

I was a little surprised to learn from your question that there is such a difference of opinion among authorities as to the real cause of unemployment and business depression.

Not being an authority on economic conditions, perhaps I am wrong in considering only the obvious reason for the contraction suffered in nearly every line of trade.

I cannot call any financial wizard to my aid, no one can any enigma to make the present business situation appear the result of mysterious or hidden causes.

To me it resolves itself into nothing more nor less than the evanescent stage following a period of financial and commercial excesses. There may be any number of contributing causes, but they are the kind of causes that we always have with us even in times of greatest prosperity.

COST OF THE WAR.

The lowest authoritative estimate that I have seen of the actual money cost of the war—that is, the distinguishable loss outside of the fearful toll of human lives—is 175 billion dollars. I believe that eminent economists estimate the direct and indirect costs to date at more than 435 billions of dollars. A large part of that represents actual wealth forever destroyed.

With the world just emerging from the greatest calamity in history, it is not so remarkable that there has been a period of all kinds of business, financial and labor troubles, contributing to what we call a depression, but that we have done so well in meeting our troubles and working back towards normal prices and normal living.

A small buy and a hammer can make a perfect machine, representing months of work by skilled artists, worthless in five minutes. The work of half a century had gone into the system of domestic and international trade which was disrupted overnight by the war. Business friendships of long standing were broken.

It is not necessary to review the train of evils that followed, one withdrawal of millions of men from productive pursuits for the purpose of war. Wage scales were abandoned, efficiency suffered, people swung from economy to extravagance and many other evils quickly developed.

PAINFUL RETURN.

The contraction necessary to a return to a sane life is, of course, painful. It is not easy to return to the simple life abandoned under the intoxicating influence of sudden and abnormal prosperity.

Nevertheless, it seems to me that we have made progress toward normal conditions and hope we have passed through the worst of the readjustment trials. There must be still further reduction in costs of manufacture and distribution and in all living costs.

I see no reason to expect an immediate return to what we regard as normality in this country, but our gain will be greater if we work out our salvation slowly, giving time to make the readjustment more nearly uniform in all lines of activity.

TOMORROW — Samuel Gompers, President of the American Federation of Labor.

freight, for Cubas, equal to 4.23c for centrifugal and 4.13c for centrifugal for outside sugars. Raw sugar futures were steady on covering and closing prices were unchanged to 3 points net higher. Final prices: October 2.25c; December 2.44c; March 2.34c and May 2.41c.

There was no change in refined prices listed at 5.50c for fine granulated.

Trading in refined futures consisted of two lots of September and closing prices were 5 points higher to 5 net lower. October closed at 5.45c and December and later months at 5.25c.

Cotton fell with wheat and September delivery touched the lowest level since 1812. Oats followed downward with other cereals.

Exhaustion of stocks of pork here put an continued anxious bidding from shorts and to sharp new jumps in market quotations. Other provisions were up.

NEW YORK STOCK.

By The Associated Press.

NEW YORK, Sept. 28.—Debacles in the stock market today continued to reflect the detached attitude of the public and the more divergent views of professional interests. Leaders rose and fell, mostly within contracted limits and the operations of bull pools in specialties were ignored.

More than half of the business centered in favorites of the steel equipment.

most of the advance losses bucking and heavy house top 18.50c; bulk lights and light bounces 18.10c-18.15c; bulk packing cases 18.25-18.35c; plus steady bulk 17.50c-18.50c.

SHEDS: Receipts 30,000. Market generally steady, western lumber top 18.50c bulk 18.00c-18.50c; top natives 18.50c bulk 18.00c, units 18.00c-18.50c; fat logs 18.50c-19.00c bulk 18.25c-19.25c; reader lumber top 17.50c bulk 18.25c-19.00c.

LIBERTY BONDS: NEW YORK, Sept. 28.—Trading in Victory and Liberty issues, particularly Victory notes, again dominated the bond market today. Debentures approximated \$12,000,000, or almost three-quarters of the day's total volume, on the stock exchange. Heavy transactions at private sales also were reported. Most of the Liberties closed at trifling losses, but Victory 4% reached their recent maximum of 99.50c per cent.

Another stamp in the German mark to the new law of 9/28, with moderate recovery later was the distinguishing feature of the foreign exchange market. British and French rates were barely steady.

NEW YORK DRY GOODS: By The Associated Press.

NEW YORK, Sept. 28.—Cotton goods were active in the gray goods division and slightly higher prices were paid for print cloths and sheetings. Yarns continued firm. Men's wear was quiet. Dress goods lines that were to open October 1 will not be priced until October 15. Bursts were quiet with a slight easing on small lots. Ready-to-wear for winter use was rather quiet.

A MILLION DOLLAR BABY

Naturally, those who see this heading expect to read about some "baby heir" of an American multi-millionaire, and they will be surprised to learn that such a description applies to a scientific pyorrhoea preventative, tooth powder preparation, and they will doubtless wonder how such a product ever came to be spoken of as a "million dollar baby." So the story must be told. Over three years ago, the Research Department of the Rexall Company, in consultation with chemical specialists, began an exhaustive investigation into the disease Pyorrhoea, and its proper treatment, and in their characteristically thorough way spent over two years before they perfected a compound which answered every test, according to their high standards. Such a remarkable demand has been created that they have named it "the Million Dollar Baby." Probably no preparation that is devised for use as a germ combatter was found so efficacious in preventing all contagious diseases that enter the system through the mouth and nose as Klenzo Liquid Antiseptic. Especially was it proved that users of it completely escaped all attacks of the fits when prevalent last year. This Rexall product can be purchased in 25c and 50c special toilet bottles at
